

Listening Transcript Set 3 Passage 8

W: Hi, Jack! Do you know our school has opened a mental health station recently?

M: Really? I didn't notice that. What's it for?

W: It's to help us handle pressure from exams and relationships — many of us are actually stressed out lately.

M: That's a good idea! Do they have professional teachers there?

W: Sure, and they offer one-to-one talk. Sometimes, they will invite experts to give lectures on stress management. For students with serious troubles, they will help them contact doctors at the school hospital.

M: That's great. How can we get help?

W: You can either walk in directly or call them at 63529871 to make an appointment. It's open from 4:00 to 6:00 every weekday afternoon.

M: Thank you for telling me so much. I think it will be a warm place for all of us.

W: I hope so. I just want it to really help us, not just be for show.
